

Chromebooks

The new Chromebook E1 is utilizing the Chrome OS and Google services to allow the most productive, secure, speedy, and simple to use solution for the K12 educators and students.

It's the first truly optimized Chromebook for K12 students with a more rugged design and special handle for improved mobility and robustness.

Highlights of the Chromebook:

- Chrome Operating System
- Quad core CPU RK3288C 1.8 GHz
- 11.6" HD LED backlit display
- Rugged enclosure
- Carrying handle
- 16GB eMMCflash memory
- 2GB/4GB DDR3 RAM memory
- WIFI 802.11 a/b/g/n/ac MIMO
- Bluetooth 4.0
- Virus protection and auto-updates
- **PLUGLESS CHARGING OPTION AVAILABLE!!**

**Available on
State contract**

By using the Chrome Management Console (CMC) the educators can centrally manage the safe and secure operation of the Chromebooks with a minimum effort relative to more traditional Microsoft or Apple based solutions, thus saving cost ensuring students are not losing productive time.

Highlights of the CMC software:

- Manage up to 10,000 Chromebooks with ease across a school or district
- Pre-install and block apps and web sites easily
- Customize the user features and appearance
- Easily setup the network access to the schools WIFI system
- Create user groups with policies supporting selected apps with settings for secure use
- Manage access to the Chromebooks to prevent unauthorized use
- Track the whereabouts of the Chromebooks
